REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Haerer et al, U.S. Patent No. 5,759,987, discloses a detergent composition comprising a mixed ether according to formula I (see col. 2, lines 1-10 for the structure of formula I) and a fatty alcohol polypropylene glycol/polyethylene glycol ether according to formula II (see col. 2, lines 11-20 for the structure of formula II). It is further taught by Haerer et al that the hard surface cleaning composition may also contain additional surfactants, such as alkyl oligoglycosides, dyes, and fragrances (see col. 2, line 66-col. 3, line 12). However, patentee differs from applicant in that Haerer et al does not teach or suggest in general a solid detergent composition that contains the specific gemini surfactant component required by applicant in the instant invention.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
